

### **Cleaning up is a group effort**

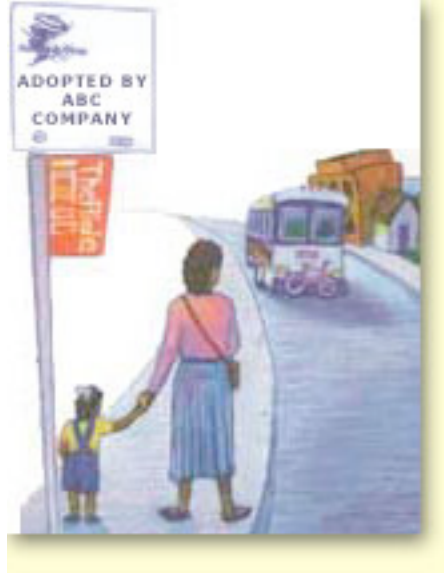

Keeping our environment clean takes the cooperation of everyone in the community. While industry and government are working toward cleaning the air and water, there is a simple contribution that anyone can make to our environment: **Adopt-A-Stop**.

RTD's Adopt-A-Stop program has been established for civic minded, volunteer individuals and organizations to contribute toward the effort of maintaining litter-free bus stops. RTD will supply appropriate trash receptacle and can liners.

Bus stop adoption is simple, and when everyone joins this environmentally conscious program, the region becomes a better place to live and work. With more than 10,000 bus stops in the metro area, your effort and opportunity to clean up the region near you will be a great contribution.

## Everyone Benefits

RTD provides adoption signs so that you and your group receive proper recognition for your efforts. When you Adopt-A-Stop, you are demonstrating civic pride and helping clean up our community.

## Who can apply?

Anyone can Adopt-A-Stop: civic groups, individuals, private companies, public agencies, churches, schools, and more. People of all ages are welcome to join in the effort to clean up the region.

## What commitment do I have to make?

Adopt-A-Stop is simple. Adopters agree to:

- pickup litter around the designated bus stops
- recycling and disposing of trash for a one-year period.

## Everyone Benefits

RTD provides adoption signs so that you and your group receive proper recognition for your efforts. RTD also monitors the program to assure that the adopted stops are being properly cleaned.

## How do I apply?

Use the [application form](#) to send in your name, address, phone number, and the bus zone you would like to adopt. You can even multiply the results of your work by adopting more than one stop.
